

YOUR HUMMER

YOUR RIDE. YOUR EXPERIENCE.

5 THINGS YOU NEED TO KNOW BEFORE YOU HIRE A HUMMER LIMOUSINE

We want you to get the most value for money and the best experience you can so here are a few tips to ensure you have a hassle free ride and focus on having fun.

1. Book as early as you can

You can book up to a year ahead to ensure you enjoy the experience you have planned and dreamed about. A 30% deposit is required to secure your booking and the remainder needs to be paid 1 week prior to the event.

2. Plan your times with your chauffeur because everything takes longer in Hummer Limo

Riding in a Hummer Limousine is a special experience and that means everyone will want a photo when they are picked up at each place you stop and why not ?

3. Expect a toilet break

You are welcome to enjoy a drink whilst travelling and inevitably that can lead to a toilet stop even on a relatively short ride. A toilet break takes between 10 to 15 minutes. If you advise all the passengers to pop to the toilet before the Hummer Limo's arrival you may avoid a break on a one hour trip

4. Choose a pick-up area that gives good access for the Hummer Limousine

Hummer Limousines are the size of trucks so they take time to park and maneuver into the right position and they cannot get into tight places. Your chauffeur will talk to you about your pick up area and you will need to allow time to walk to the pick-up area especially if guests are wearing formal clothes and high heels.

5. Have everyone pay prior to the trip including allowance for over time

Hummer Limousines are very expensive to buy and operate so any extra time must be charged and paid for on the night. It is far better to add another 20% to the cost for each passenger and have everyone pay it through bank transfer to you at least 1 week prior to the night. On the night everyone will have paid and can just focus on the Hummer Limo experience. If your Hummer Limo comes in at the exact time then everyone will be thrilled to receive some money back or you can put the money on the bar and everyone will look at it as a bonus.
